## PROFESSIONAL EXPERIENCE

---

**Devmountain** | Lehi, UT

*September 2022 - January 2023*

*iOS Developer / Mobile Engineer / Web Developer (student)*

Billminder - [Github Repo](#) | [Demo](#)

Swift | CoreData | UIKit | UserNotifications | CloudKit | StoryBoard | Figma

- Developed a Bill reminder app using swift to remind users of upcoming bills
- Utilized CoreData to store data and persist data
- Utilized MVC architectural pattern in presenting and accepting information from users
- Utilized UserNotifications to schedule and fire notifications
- Utilized Figma as a drawing board to bring the idea into life before build commenced
- Integrated notification post and observers to reload data on different views

Kvng Eko's Marketplace - [Github Repo](#) | [Demo](#)

HTML | JavaScript | NodeJS | Express | PostgreSQL | Axios | CSS

- Developed an NFT eCommerce site using Node to provide a simple user experience for NFT purchases
- Integrated Axios to make calls to the backend
- Integrated CSS for styling and PostgreSQL for databases

**Puzzules LLC** | Lonehill, Johannesburg

*September 2019 - September 2022*

*Owner*

- Increased our portfolio by over 48% by performing market research to understand new cryptocurrency and tokens to invest in
- Made precise decisions on latest trends in the crypto world in order to diversify our holdings
- Created value with customers by building trust and also making sure there was zero delay in payment of funds to customers
- Increased sales and profitability by conducting market research, attending to customer needs promptly, and analyzing competitors in order to offer competitive buying rates to customers

**E & K Farms** | Akure, Nigeria

*January 2021 - December 2022*

*Co-Owner/Account Manager*

- Increased total number of birds in our poultry from a starting 1000 birds to 3800 birds within the first 6 months
- Co-ordinated swift payment and collection system which in turn maximized our productions
- Facilitated training for ground personnel to be able to identify and swiftly deal with new sicknesses or diseases associated with poultry birds
- Optimized personal sales strategies by building one on one relationships with wholesalers and retailers
